Section 1 – Demographics & Vulnerability Profile

This section asks about your basic background and living situation. Your answers are anonymous.

Do you live in Egaleo?

- Yes
- No

Where do you currently live?

How long have you lived in Egaleo?

- Less than 1 year
- 1–5 years
- More than 5 years

What is your age group?

- Less than 18
- From 18 to 29
- From 30 to 44
- From 45 to 59
- 60 or older

What is your gender identity?

- Male
- Female
- Non-binary / third gender
- Prefer not to answer

Which language do you feel most comfortable using in daily life?

- Greek
- Other

Please specify the language:

What is your highest education level?

- No formal schooling
- Primary school
- High school / secondary
- Higher education (college/university)
- Prefer not to answer

What is your annual household income (before taxes)?

- Less than €10,000
- €10,000–20,000
- €20,000–30,000
- €30,000–40,000
- More than €40,000
- Prefer not to answer

Who lives with you in your household? (Check all that apply)

- Living alone
- Children (age 0–10)
- Teenagers (age 11–17)
- Adults (age 18–64)
- Older adults (65+)
- Persons with chronic illness or disability
- Pets
- Other

If you selected "Other", please specify:

Do you have any health conditions or disabilities that make you more sensitive to heat (e.g. heart disease, asthma, diabetes, mobility impairment)?

- Yes
- No
- Prefer not to answer

If yes, please specify:

Do you have any mobility limitations that could affect how you prepare and respond during extreme heat?

- Yes
- No
- Prefer not to answer

Section 2: Living Conditions and Resources

This section focuses on your home, neighbourhood, and access to basic resources during hot weather. Your answers will help us understand how living conditions affect people's ability to cope with heat.

How would you describe your home?

- Very well protected (well shaded and/or good insulation)
- Rather well protected (some shade and/or medium insulation)
- Rather exposed to heat (limited shade and/or weak insulation)
- Very exposed to heat (Strong sun and/or poor insulation)

Which best describes your neighbourhood?

- City center (dense urban)
- Residential urban/suburban area
- Semi-rural or village
- Rural (countryside)

Do you have air conditioning (AC) in your home?

- Yes, central AC (all main rooms)
- Yes, window/portable AC in some rooms
- No AC, only fans or natural ventilation
- No cooling system (neither AC nor fans)

How often does your household lose power (electricity) during hot weather?

- Often (almost every heatwave)
- Sometimes (occasionally)
- Rarely
- Never

When your household loses power during hot weather, how long does the outage usually last?

- Less than 1 hour
- 1–3 hours
- 3–6 hours
- More than 6 hours
- It varies a lot / Not sure

Is reliable running water (for drinking/cooling) available at your home during heatwaves?

- Yes, always
- Sometimes (intermittent)
- No, supply is unreliable or limited

Which of these resources do you have access to, if needed during a heatwave? (Check all that apply)

- A medical kit with medications and first aid supplies
- Extra bottled water or water storage
- Portable power bank or generator
- A local “cooling center” or public facility (e.g. library, mall)
- Community support (neighbors/family who can assist)
- None of the above
- Other

If you selected “Other”, please specify which resources you have access to:

_____

How do you usually receive or check heatwave alerts? (Check all that apply)

- Rely on friends/family
- Smartphone app
- SMS / phone alerts
- Computer or tablet
- TV
- I do not check

Section 3: Past Heatwave Experience & Actual Responses

This section asks about your personal experiences during past heatwaves, including how you were affected and how you responded. There are no right or wrong answers, only your experiences matter.

In the last 5 years, have you experienced at least one period of extreme heat or heatwave?

- Yes, several times (3 or more periods)
- Yes, once or twice
- No, never

Where did you experience this heatwave or extreme heat?

- Egaleo
- Other

If you selected "Other", where was that?

_____

In your memory, how many days in a row did that heatwave last?

- 1–2 days
- 3–5 days
- 6–9 days
- 10 days or more
- I don't remember

During the hottest part of the day in that heatwave, how did it usually feel inside your home?

- A bit uncomfortable but tolerable
- Very hot and difficult to stay comfortable
- Extremely hot, almost unbearable
- I don't remember

During the nights in that heatwave, how did it usually feel inside your home?

- Cool enough to sleep comfortably
- Warm but I could still sleep
- Very hot, I had difficulty sleeping
- Extremely hot, I could hardly sleep
- I don't remember

During that heatwave, did you or someone in your household have any health problems or disabilities?

- No
- Yes, someone was already unwell (chronic illness or disability)
- Yes, someone became unwell because of the heatwave (heat-related symptoms)
- Both (already unwell and became worse or unwell due to the heatwave)

Thinking about those resulting problems: what did you do? (Check all that apply)

- Drank more water or other fluids
- Rested or lay down in a cooler place
- Took a cool shower, bath or used cold cloths
- Took medicine on my own / gave medicine (e.g. painkiller)
- Contacted a family member, neighbour or friend
- Called a doctor or telehealth service
- Went to a clinic or hospital
- Called emergency services
- Did nothing special
- Other

If you selected "Other", please describe what you did:

_____

In the days just before that heatwave started (if you knew about it), did you do any of the following? (Check all that apply)

- I did not know in advance / I did nothing special
- Checked that fans or air conditioning were working
- Bought extra drinking water or drinks
- Bought food that does not need cooking
- Closed shutters/blinds or set up extra curtains
- Planned to change my routine (e.g. avoid going out at midday)
- Arranged to check on, or be checked on by, family or neighbours
- Moved temporarily to a cooler home or place
- Contacted local services
- Other

If you selected "Other", please describe what you did:

_____

During the hottest days of that heatwave, which of the following did you actually do? (Check all that apply)

- Stayed mostly in the coolest room at home
- Used a fan
- Used air conditioning
- Kept windows and blinds/shutters closed during the day
- Opened windows at night to cool the home
- Drank more water or other fluids than usual
- Took cool showers or used wet cloths to cool the body
- Went to an air-conditioned public place (e.g. mall, supermarket, library, cinema, gym)
- Went to a designated cooling center (public building opened specifically as a cool space)
- Spent time outdoors in shaded green areas (parks, gardens, trees)
- Slept in a different room or on the floor to stay cooler
- Reduced physical activity (e.g. stopped exercise, avoided walking)
- Changed working hours or daily schedule (e.g. did things earlier or later)
- Checked on vulnerable people (e.g. elderly, sick, neighbours)
- Asked for help (from relatives, friends, neighbours, NGOs, authorities)
- Stayed with relatives/friends (who may have AC)
- Nothing in particular, I kept my usual habits
- Other

If you selected “Other”, please describe what you did:

_____

Section 4: Preparation, Knowledge & Potential Future Responses

This section asks about your knowledge of heat protection, how prepared you feel for future heatwaves, and what kind of support or information could help you in the future.

Have you ever attended any training or awareness session about heat and heatwave preparedness (for example, a safety seminar, information event or drill)?

- Yes, within the last 3 years
- Yes, more than 3 years ago
- No

Do you know what actions to take during an extreme heatwave in the following situations?

	Yes	No
At home:	○	○
At work or at school:	○	○
Outdoors:	○	○

Overall, how prepared do you feel to protect yourself and your household during a future heatwave?

- Not at all prepared
- A little prepared
- Moderately prepared
- Well prepared
- Very well prepared

Below is a list of different types of help or support that can exist during heatwaves. Some of them may not exist where you live.That is fine. Please answer based on what you think about each type of support. For each, please select what applies to you.

	I think this would help me and I would use it if it were available	I think it could be useful, but not relevant for me personally	I do not think this would help me / I would not use it	I do not know this type of support
Using public cooling center (e.g. gym, community hall as cool space)	○	○	○	○
Using other public air-conditioned place (mall, library, cinema, gym)	○	○	○	○
Establishing free drinking water points / hydration stations	○	○	○	○
Visit/check from a doctor, nurse or health worker at home	○	○	○	○
Telephone or online health advice (hotline, telemedicine)	○	○	○	○
Heatwave alerts or messages (SMS, app, automated call)	○	○	○	○
Posters or signs in public places with heat advice	○	○	○	○
Information hotline or website about heat and available services	○	○	○	○
Shaded public spaces (parks, trees, pergolas) used to stay cooler	○	○	○	○
Public misting devices or water sprays	○	○	○	○
Free or discounted public transport during a heatwave	○	○	○	○
Shuttle / organised transport to a cooling center	○	○	○	○
Neighbours or volunteers checking on you or others	○	○	○	○
Help from NGOs, charities or religious groups	○	○	○	○
Help paying energy or water bills	○	○	○	○
Free or subsidised fans or air conditioners	○	○	○	○
Wearable or smartphone tool to monitor heat or health	○	○	○	○
Chatbot or online assistant answering questions about heat	○	○	○	○

Is there any type of help or support you would like to have during heatwaves that is currently not available or not easy to access for you?

_____
